

A3 Clicky

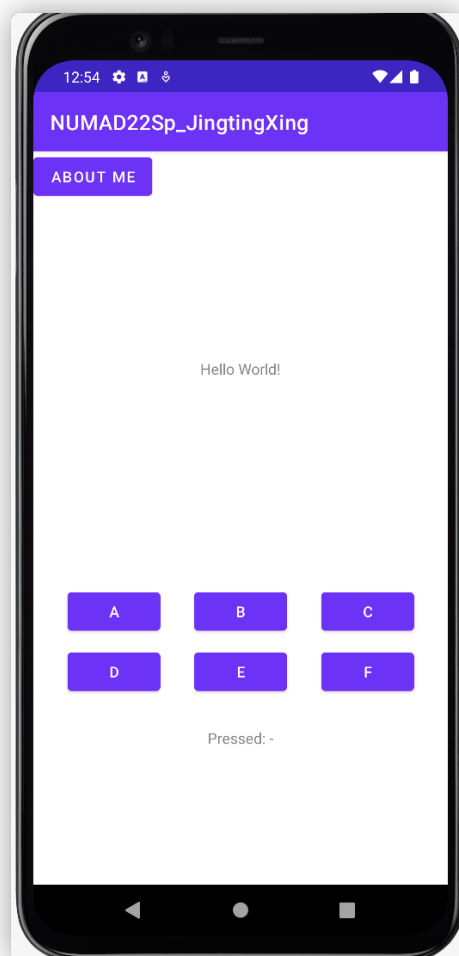

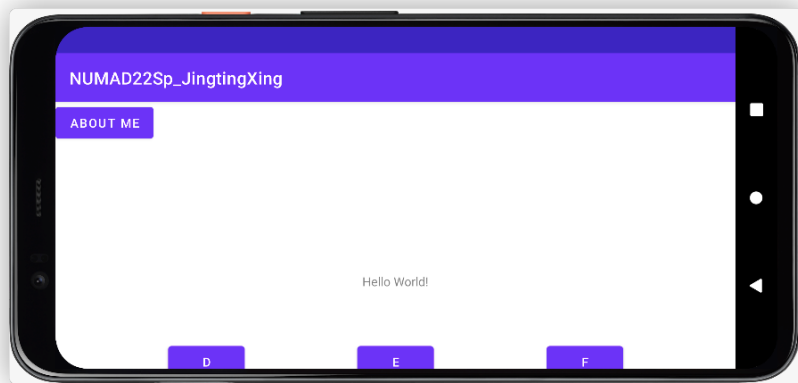

1. The new activity should have six buttons arranged in a grid, 3 across and 2 high. ConstraintLayout, not GridLayout. Label the buttons A, B, C, D, E, and F. Put text underneath the buttons. That text should read "Pressed: - " because no buttons have been clicked yet.

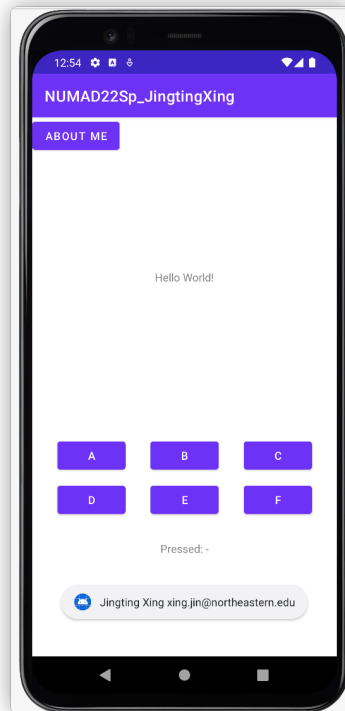

2. When a button is clicked, the text should change to "Pressed: A".

3. If the display is rotated, the text will change back to "Pressed: -".

4. About me

5. App icon
